

TIPPER BY LODAMASTER

Perfect for feeding the bulk directly onto conveyor lines

Watch Now!

TIPPER – SMART UNLOADING SOLUTION

-  Boost your unloading speed, improve productivity, and increase sorting efficiency, all while accelerating operations and minimizing downtime.
-  Reduces manual intervention and physical strain on operators.
-  Complies with international safety standards, ensuring a secure working environment.

For Logistics, E-Commerce, and Parcel&Post Services

High Capacity Unloading

Handles up to 500 kg of packages in a single tipping cycle, ensuring fast and seamless unloading of containers.

Robust Hydraulic Power

Powerful hydraulic system ensures smooth and efficient operation with adjustable tipping angle.

Customizable to Fit Your Space

Adjustable height, length, and width to meet various operational needs.

Built for Operator Safety

Features light barriers, emergency stop buttons, and protective enclosures that prevent unauthorized access during operation.
